To Whom it May Concern:

I am pleased to provide a letter of reference for Daniel Farber Huang and Theresa Menders and their powerful documentary photography “The Power of Faces: Looking at the Global Refugee Crisis”. We have the privilege of exhibiting “The Power of Faces” at Amnesty International USA’s Northeast Regional Conference in Boston and again at our Mid-Atlantic Regional Conference in Philadelphia in 2018.

Amnesty International is a global movement of more than 7 million people in 150 countries who are campaigning for a world where human rights are enjoyed by all. Amnesty International USA is the global organization’s presence in the United States. Our members include experts on specific human rights issues, parts of the world, or advocacy areas. The Northeast and Mid-Atlantic Regional Conferences bring together Amnesty members and a wide range of human rights activists.

“The Power of Faces” exhibit was an important and engaging aspect of our conference. The exhibit photographs contributed meaningfully to the conversation about who or “what” a refugee is, and was in many ways inspiring to the audience. We allocated significant gallery space to the full exhibit, which allowed the delegates to experience this beautiful exhibit to maximum effect. “The Power of Faces” shows a fascinating, and often unseen, perspective of the global refugee crisis. It is eye-opening, informative, uplifting and was perfect for inclusion in these major Amnesty International USA conferences.

Theresa and Daniel were highly professional in all aspects of their work and we greatly appreciate the energy, resources and dedication they committed to ensure our conference was successful. They are a pleasure to partner with and we look forward to finding ways to work together in the future. I highly recommend them and this incredible body of work.

Please do not hesitate to contact me should I able to be of further service. Thank you very much.

Yours sincerely,
